

# Engineering Courses Required Supplies and Information

## Engineering Notebook Requirements

Composition Notebook for this class only, prefer quad-ruled (graph paper) but lined is also acceptable.

Note: You must have this notebook in class with you each time we meet and I will collect them periodically to check your progress. A formal grade will be assigned every 6 weeks for the notebook and will include a checklist.

**Notebook check #1 August 17th.**

This year we will create an electronic portfolio in place of the 3 ring notebook. This is a major grade and students will be expected to keep all handouts and notes to assist in completion of the portfolio. Students will also save the portfolios on their personal USB drives which they are responsible for maintaining.

## Additional Supplies:

- USB Jump Drive, 2GB or higher, can be used for other classes as well, but needs to be in class every day.
- Mechanical Pencils
- Pens (blue or black ink)
- Eraser(s)

**Lab Fee:** \$30.00, can be paid online at [www.santarosaacademy.org](http://www.santarosaacademy.org)

**Class website:** [www.technologyrocks.net](http://www.technologyrocks.net)

\*Please see this site for a complete syllabus and course information
